

Civil Discourse Training

Led by Alan Yarborough
Church Relations Officer for the Episcopal Church

Have you been increasingly concerned about the polarization of our country?

Have you often felt ill-equipped to speak with people who don't share the same ideas or views on the world?

This course is for you. Pursuing Justice and Peace starts with our ability to talk with one another respectfully even in disagreement.

August 6, 13, and 20
6:30-8:30PM

Three online sessions. Free.

The training will cover tenets for civil discourse, values-based conversations, the messiness of policymaking, and the importance of maintaining a sacred space for debate. We hope it will motivate you and your communities to enter confidently into constructive conversations on the important issues facing our local communities, our country, and the world.

Register by Aug 5.
