The Diocese of Newark has adopted a system of salary administration for clergy that includes minimum salary standards for all full-time clergy serving parishes or missions in the Diocese. Minimum salary standards are reviewed annually and recommendations are made to Convention. A history of the last ten years follows:

The Church Pension Fund publishes an annual report on clergy compensation which can be found at <https://www.cpg.org/global/research/reports-statistics>. Recent comparisons between the Diocese of Newark and the surrounding dioceses are found later in this document.

The Diocese of Newark requires a mutual ministry review and recommends an annual performance review for clergy. Information concerning mutual ministry reviews and the performance review process can be found on the diocesan website and trained congregational consultants are available to facilitate the mutual ministry review process.

Merit increases should be awarded based on these reviews and other market factors such as scope of position, length of service, and compensation relative to the median compensation within this diocese and surrounding dioceses.

RESOLUTION II: Continuing Education Allowance

RESOLVED, that the 146th Convention of the Diocese of Newark adopts a minimum, mandated clergy Continuing Education Allowance of \$1,000 annually, effective January 1, 2021.

Supporting Information

The current mandated allowance of \$750 dates to 2020. The proposed increase reflects a desire to support continuing education for clergy as the cost of those opportunities continues to rise. Even with the increase, the full cost for some programs, including travel costs, can well exceed the mandated allowance. Congregations are encouraged to provide additional support to the extent possible.

Determining Part-Time Compensation

It is expected that full-time clergy work approximately 50 hours in an average week. Compensation calculations for part-time clergy should be based on this average. For example, a half-time position would require 25 hours of work per week. Clergy, whether part-time or full-time, are acknowledged to be available for pastoral emergencies at all times.

Clergy working a minimum of 25 hours weekly are eligible for health and dental coverage consistent with full-time clergy.

Establishing a Housing Allowance

A portion of each cleric's cash stipend may be designated by a Vestry or Executive Committee as a "housing allowance" in accordance with the Internal Revenue Code. The designation must be voted upon prior to payment and explicitly noted in the minutes of the meeting. The cleric is solely responsible for tracking qualified housing expenditures and declaring any excess "housing allowance" as income. The maximum amount of "housing allowance" (excludable from taxable income) is the **lowest** of the following three amounts:

- the fair market rental value of the house (fully furnished)
- the actual amount spent to provide housing (including furnishings and utilities)
- the amount designated in the vestry designation

Calculation of Social Security Offset for Clergy

Clergy are considered employees for income tax purposes (compensation reported on W-2) but are taxed as self-employed persons for Social Security purposes. This is called SECA, which is named for the Self-Employment Contributions Act. The Diocese of Newark mandates that clergy compensation be enhanced by an amount equal to 50% of the cleric's estimated self-employment tax to compensate for this additional tax. It should be noted that this compensation enhancement is also considered taxable income. The [Clergy Compensation Calculator](#) on the diocesan website can be used to calculate the offset amount as well as the other elements of clergy compensation.

Total Assessable Compensation

Effective January 1, 2018, the Church Pension Fund redefined Total Assessable Compensation (TAC) which is the basis for the 18% pension assessment. This redefinition was done to address inconsistencies in how employer-provided housing had been incorporated into the calculation of Total Assessable Compensation. Total Assessable Compensation (TAC)* is now defined as the annual sum of the following:

1. Base salary (excluding housing) and scheduled taxable cash payments;
2. Cash housing allowance and/or utilities;
3. Employer contributions to a qualified or non-qualified plan;
4. One-time payments; and
5. Value of employer-provided housing, which equals 30% of the sum of #1 through #4 above (or, if higher, 30% of the Hypothetical Minimum Compensation (HMC), which is expected to be \$1,500 per month (\$18,000 per year) beginning on the effective date of the revised plan).

* Any form of severance (including pay continuation following a termination of employment) should be excluded in all cases.

In addition:

- Clergy whose only compensation is employer-provided housing will now be able to participate in the Clergy Pension Plan if they otherwise meet the eligibility requirements. Their TAC will be 30% of the HMC. Employers must pay assessments on this amount.
- Certain key changes to note are as follows:
 1. Cash housing allowance will be assessable in all situations.
 2. Severance payments will not be included in TAC.
 3. Employer-paid tuition for dependents that is not taxable income will no longer be assessable.
 4. The assessable value of housing will be the same whether clergy receive only employer-provided housing or both room and board.
 5. If clergy have multiple employers, assessments for employer-provided housing will no longer be allocated between employers but only to the employer providing housing
